## The direction of technology

The golf ball has changed

Despite being the most regulated piece of golf equipment, the golf ball improved again in 2018.

There are some that are troubled by golf ball improvements.

There's sometimes a hysteria about the subject.

But what about this from Golf Illustrated in 1910: "If the carrying power of golf balls is to be still further increased, all our golf courses will be irretrievably ruined as a test of the game."

Wow, a 100 years ago they were worrying about the golf ball.

So, how easy do you find the challenge of golf? Even with over a hundred years of ongoing improvement in the golf ball, has the game become easy?

All golf balls are better now

The latest innovations we have seen have allowed all golf balls to feel softer at impact, creating a better feel, while still maximizing ball speed. Each golf ball model does perform differently though. Some will work better for you than others. Have you ever had a "golf ball assessment?"

Contact us >

What motivates you?

The summary and what happens now

In the last three weeks, we've asked questions about what you most want out of your golf.

What is most important to you:  
the social, recreational  
experience or the sporting  
competition?

As you drive to the  
golf course, amongst  
all the important things  
you want to be right,  
what is the most important?

There are so many  
formats in golf. Which  
do you prefer the most  
and which do you least enjoy?

Let us know

If you haven't answered these simple questions, and want to help, then we've combined them into one easy web page.
