

Hollowtining ...

We will be hollowtining the greens on Monday, 3rd and Tuesday, 4th February. This will give them a healthy dose of **summer maintenance**, after the flooding experienced in December. As always, nine holes will be open for play on each day, and all 18 from Wednesday onwards. We expect the course to recover quickly.

A **Golf Special** will be available to you from **Monday to Friday**, next week – R200pp including golf cart sharing (R150pp without a cart). To book, please call the golf shop on (012) 654-2111.

Get Ready for Club Champs...

This year's Club Champs will be played over the weekend of the 15th and 16th May. Whilst this may sound strange, it might be a good idea to whip your game into shape, in preparation for the event.

Our many PGA professionals – who are all experts in the field – can help you with that this year. They will be hosting four clinics, once a month from February to May, which will give you enough time to practice in between. If you are interested in improving your game – take them up on their offer to give you the best advice.

The first clinic will take place on **Wednesday, 12th February**, and will focus on improving your long game.

Valentines Picnic – Friday, 14th

Our annual romantic picnic under the stars. We'll have a lamb on the spit, for main course, and you will receive a picnic basket filled with scrumptious starters, sides and desserts.

A romantic-themed poster for a Valentine's Picnic. The background is a deep red with soft, out-of-focus bokeh lights in shades of pink and red. In the foreground, there is a still life arrangement: two wine glasses filled with a golden liquid, a large vibrant red rose on a white plate, and a set of silver cutlery (fork and knife) next to a small red heart. The text is overlaid on the upper right portion of the image.

Floris took his pants off in order to retrieve his driver from the river, on Saturday. While he's been in the river to retrieve golf balls, and even gone in to save stranded people, he can now claim to have rescued his driver. What we'd like to know is how did his driver land up in the river, in the first place?
