

How are you doing?

We're almost one week into lockdown, and I hope that you are still hanging in there.

Have you realised that if everything goes according to plan and we are free to return to our normal lives on the 17th April, bookings for golf will open tomorrow? That's right. Zwartkop Members are able to book for golf two weeks in advance, which means tomorrow. Obviously during this time, you can only book online, but fear not – the process is simple.

Step 1 – [Click here](#) for the Tee Sheet

Step 2 – If you haven't already registered to book online, do so now

Step 3 – Log in to the system

Step 4 – Choose the date you want to book for and enter your details

Step 5 – You will receive an automated email confirming your booking

If for some reason, the lockdown period is extended, we will be in touch with you. We are trying to be optimistic! If you need any assistance from us during this time, you may contact our key areas as follows:

Golf and Golf Shop – ian@zwartkopcc.co.za

Corporate Golf & Group Bookings – sharon@zwartkopcc.co.za

Accounts – kotie@zwartkopcc.co.za

Zwartkop Catering – admin@zwartkopcatering.co.za

Well done to the team from Zwartkop Catering!

The homeowners and members have been blown away by the convenience store that Adam, Linda, Ina, Lawrence and their staff are operating from the Halfway House.

Adam does most of the deliveries himself, and is getting to meet new homeowners on a daily basis. It's very important to us that we do our part to keep our staff and members healthy and happy. This service allows homeowners to never leave the Estate – hopefully we are achieving our goal!

Exercises you can do at home to help your golf game

In this video Elsabe focuses on enhancing stability and mobility.

You can still have an individual golf lesson

Yes, even while you are stuck at home

Physical lessons may have been cancelled for now, but Elsabe can still assist you one-on-one support.

She is inviting you to send her a video of your swing or short game via WhatsApp, email. You can even post it on YouTube and forward her the link. Take advantage of this unique offer, while you can!

**Make it a different year.
Be crazy. Be better.**

This is the craziest year we've ever experienced. So let's hit the reset button and be even crazier. Let's make this the year we all change up.

Each of you will be able to close your eyes and think of an exquisite golfing moment. Usually that will be the perfect shot, often unexpected, that surprises you AND your playing partners.

So let's start this crazy month, by imagining what it would feel like if you repeat that exquisite feeling more often, even frequently.

We'd like to understand what we can do

Now is a great time to start an email or phone conversation to talk about your golf game. In 15 minutes let's find out whether you're on a journey or whether you've settled for what you have. We can then put our minds to finding your best route to more moments, better golf, and a ton of extra fun. Start a conversation.

**A great feeling.
Made greater.**

Don't you just love ripping the ball out of the sweet spot off the tee? Watch it fly. What if I told you that science is helping some golfers add up to 40 metres to the end result? That's an even better feeling.

Do you want
40 metres
of better feelings?

"Manufacturers spent years pleading with golfers to play with higher lofted drivers because they'd discovered the ball would fly further with increased launch angles. Most people ignored them, so they gave up! Now they use technology to make a 10 ½ degree driver launch the ball higher for extra length."

"Now brands are designing forgiving drivers that also lower the spin rate of the ball to deliver you even longer carry with much more consistency."

These are now rocket launchers we can tune to match your ball speed and angle of attack, giving you more of the greatest feeling in golf.

Making greater

While improvements year on year might be incremental, after a few years the improvements in driver technology are hugely significant. Especially if you match your swing DNA to the launch DNA. When we next see you, let's talk about this or
