

The Pros took the match

On a cool, windy winter's day, which made for a good test of golf, the Pros came out on top in The Match. The Match is a fun contest between the Senior League Team; the Premier League Team; the students from the Golf Management Campus and a team of Professionals. Joe Phiri, the Captain of the Pro Team was all smiles when he was presented with the trophy – can you guess the team behind their masks?

No more three-putts.

How good are you from a distance?

Knowing you can comfortably handle long putts takes the pressure off needing to land your ball close to the flag on approach. When you're able to consistently two-putt from distance, your golf experience is transformed.

Try this fun benchmark game

Find ten different 25-foot putt locations on a practice green to the same hole. See how many of your ten putts you get within 2 feet. We think most golfers will be in the 3 to 5 foot range. But we can get you closer, so you can two-putt with ease.

Lie angle

When your lie angle is out, consistent ball striking becomes very difficult.

Arc

Straight back, slight arc or strong arc? We need to ensure the putter you're playing with works with you.

Tempo

A consistent swing tempo takes the guesswork out of putting.

Eliminate three-putts

Better putting means more holes completed with the satisfaction of a solid two-putt or even a birdie. Let's schedule a session on the putting green and work on getting you closer from distance. In the meantime, we can give you some drills to do at home.

Go the distance.

Clubhead speed really matters.

Your distance potential is determined to a large extent by your clubhead speed. We want to make sure you're not losing out.

Clubhead speed is the speed of the clubhead immediately before impact with the golf ball.

Increasing your clubhead speed by a mere 1 mph can add just over 3 metres of distance.

Challenge us to get you there >

Modern driver clubheads have become a lot more aerodynamic, which helps to increase clubhead speed. But if you're going to benefit from that technology, we need to make sure your club setup is correct.

All the distance you can

If you're swinging to your full potential using custom-fitted clubs, the distance gains can be massive. We're here to help you achieve that. Let's schedule an assessment for when you're next at the course, or we could also,
