

Srixon ZX Series Demo Day

Your success and enjoyment on the course is just as important to us as it is to you. Join us for our **Srixon ZX Series Demo Day** on **Friday, 23 October**.

This is the perfect opportunity for you to make a massive difference to your scorecard by testing out the latest technology from a leading brand in the industry.

You'll get professional short game and driving tips, as well as feedback on which clubs will best suit your game, so that you can walk away from the green with a smile on your face more often.

Be sure to [book your spot](#) – this is an event you wouldn't want to miss.

Tackle each shot, on any course with confidence

There are four ways that you can improve your golf:

1. Fitness

Justin Godfrey has now qualified as a Level 1 TPI Instructor. There are exercises and stretches that are closely linked to the golf swing, which can improve your swing and your game. Especially, if there is an underlying weakness in your body. Contact **Justin** for details on **082-925-0236** and find out how he can help you.

2. Equipment

Golf is one sport where a bad workman can blame his tools. Matching the right equipment to your build and golf

swing plays a massive role. That includes the correct grip thickness, right shaft flex, length of club and the lie of the club. Don't forget to match the ball to the clubs you use and to your overall game. This can make a difference of between **5%** and **15%** to your distance and accuracy.

3. Mental

I'm amazed at how many club golfers that I bump into who are positively negative. The right attitude will make a huge difference to your game.

4. The Golf Swing

Here is where golf lessons come into their own. Most club golfers have never had a golf lesson. Some even brag about the fact that they are self-taught and have a 16 handicap. Well, I can guarantee that with a few lessons, your 16 handicap could go down to a 12 handicap. Even if your handicap stays the same, you will be a much better player and an even better partner to play with.

Stay in play

Be prepared for any course

There is a way you can prepare for the challenges of any golf course, even if it's your first time playing it. By using your dispersion patterns you'll have a much clearer idea of where to aim. This makes navigating new situations a lot easier.

Not sure what your dispersion pattern is? Let's get on the range and find out.

Discover your dispersion >

"Let's say you encounter a sharp dogleg left but can't hit the draw required to get around the corner. When you know your dispersion patterns, you'll know what club is best to get you to the bend while staying in the fairway. So you might not have gotten around the corner, but you're still sitting pretty with a clear view for your second."

Better decisions save shots

A more enjoyable golfing experience isn't only about improving your swing. Simply making better choices has a positive impact. We're here to help you with both.

More time for golf

A weekend experience during the week

Is there anything better than a weekend round with friends? For many of us, this experience has been confined to the weekend. But now that working from home is more common, we have more time to create pockets of joy during the week.

What a way to start your workday

There is a way to create a pocket of joy in less than 60 minutes. And that's to join a practice club. It's social fun and better golf in one. The best way to start your workday.
