## The Srixon ZX4 Iron

This month a new iron set will be released onto the market that will be a game-changer for any golfer who finds themselves with a handicap of 8 and over.

The perception has always been that **Srixon irons** were for the elite player only. Yes, **Brooks Koepka** used a set to win the **Waste Management Phoenix Open**, but that perception is about to change.

No matter your handicap, you will be able to play with a set of irons that look very similar to Brooks', but performs in a manner that suits your game. The club in your hand will be the most **forgiving** iron on the market!

This club will help you to hit the ball **further** and **straighter** than ever before. So, if you'd like to **improve** your distance, accuracy and overall **performance** this could be the iron for you. Come and visit us in the Zwartkop Golf Shop for any questions regarding these irons.

The very best for you

*A simple question for you and the first six to respond can win a prize.*

What are your priorities when you're looking at buying a new set of irons? What would be the most important to you?

**Brand**

*Are you a brand warrior who is loyal to a particular brand?*

**Best deal**

*Are you going to look for the best deals above all else?*

**Perfect fit**

*Do you believe that the most important step in a fitting is to match the configuration to your golf swing?*

**Enter\* now**

Answer the questions and we'll enter you into a draw to win a prize. A few simple questions we'd like your feedback on. We want to improve our understanding of what you require.

**Start the survey >**

## Start with an assessment

### *Be positive about your game*

We want to help as many of you as possible have a better playing experience. What would be the improvement that would make the most significant difference? Why not list one or two? But be positive about how you express your goal.

“

*I want to cut out 3-Putts.*

“

*I want to lose my fear of bunkers.*

“

*I want to fix my slice.*

“

*I want to be known as a wizard on the greens.*

“

*I want to be able to get up and down from greenside sand.*

“

*I want to hit longer tee shots hitting fairways more often.*

*The red list on the top is about removing a negative. That's a much less powerful, ongoing motivator, than going positively towards something (as expressed in the blue list below). Even more powerful is connecting that positive thought to an emotional feeling you want to experience.*

## Think about this now

What would you want to be able to do with your golf game? What would you like to be able to achieve with an improved technique? Why not try and write it down?
