The very best for you

These are amazing numbers. Could you imagine it?

We took one brand's #5 iron model and checked the number of standard variations to the different components.

- 9 Different shaft length options.
- 2 Shaft types: 1 graphite, 1 steel.
- **3** Shaft flex options on each shaft type.
 - 12 Difference lie angle options.

Do the math (9 x 2 x 3 x 12). That's a lot of different options. The chances of you dragging an iron off the shelf that matches your size, swing and athletic requirements is very low.

No matter your skill level, a fitting is a must

Before you drag something off the shelf or drop it in your digital cart, let's start a conversation about your swing.

Let's match equipment to your game to get the best result.

It may not look it, but the new Srixon ZX4 Iron is all about forgiving distance and making the game easier for you.

Start with an assessment

This changes everything

If I talked about swing fundamentals and goals, most of you would yawn. But the image on the left is the one we most often see. The image on the right is easier to achieve than you might think, and it will produce much better results.

By making a small change to the fundamentals of the golf swing most of you are playing with, we'd move from you steering the golf ball to you releasing the clubhead through the golf ball. That would make a significant improvement to your playing experience:

Certainly EXTRA DISTANCE. More than you might imagine. A surprise to everyone you play with.

Definitely **STRAIGHTER TEE SHOTS** and **APPROACH SHOTS.** More fairways from the tee. More greens on approach.

More solid, more consistent **BALL STRIKING.** More satisfaction at the end of every round.

Forget winning. Forget trophies. Hitting better golf shots makes the whole world a **BETTER, HAPPIER** place. Golf should be the therapy for life!

Would they matter?

Would playing second shots from further down the fairway and being able to hit consistent, more accurate approach shots, matter to you? Why not find out how much of an improvement could be made?
