Your Spending Account is now active

As of 1st March all members have had 20% of their membership fees – be they paid monthly or annually (pro rata) - paid into their Club Spending Account.

When paying in the golf shop, bar or restaurant you can ask them to use this allocation to pay for greenfees, golf carts, halfway house, or a meal and drinks afterwards. Please note that you will only be able to use this Spending Account if your subscription account is up to date. Subs that are not paid by the 7th of the month are blocked.

You are also able to "pay-in" or "top-up" this Spending Account, but please ensure that if you do so, you instruct the shop or reception that the money is for your Spending Account.

From the Course...

We have been busy sodding some of the areas that need it. At this stage we have done some work on the putting green area, the fairway just short of the first green, the 1st and the 6th greens. NB - All sodded areas should be treated as GUR.

We have also started to remove some trees for the driving range expansion.

Odyssey Putter Demo Day – Saturday, 11th March

Join us on Saturday for an Odyssey Putter demo day.

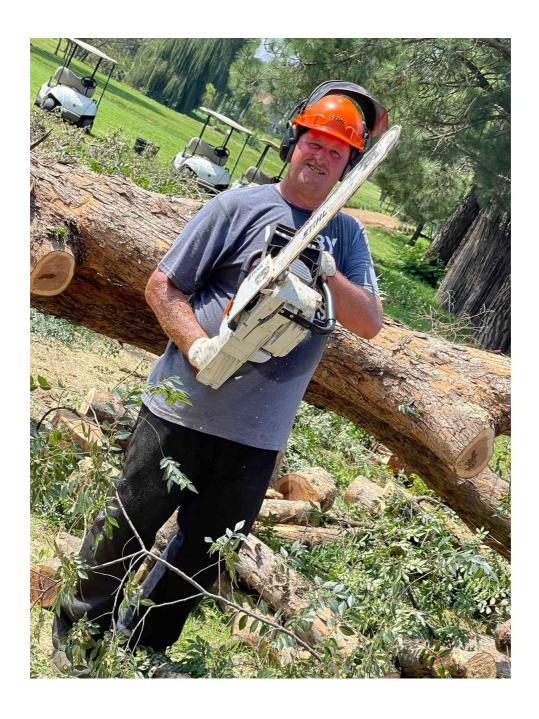

You won't regret taking the time to come down to have a look.

Star of the week

A huge thank you to loyal member **Shawn Rouse**, who has rolled up his sleeves this week to help us start with the new driving range preparations.

Let us help you play better golf

This week, Duane assists you with a tip to help get the club face square at impact. Many players have the club face too far open or too far closed at impact which will impact your ball strike. Take a look at the tip and see if this can help you.

Duane is the Head Teaching Professional at Zwartkop.

Ready, Set, Go!

Get to grips with better play

Fresh grips are important, no matter the time of year or weather conditions.

They'll look good, feel great and could be the key to sweeter strikes!

Let's fix it

When last, if ever, did you regrip your clubs? The more worn your grips become, the tighter you tend to hold on to the club. A tighter grip affects the amount of energy you're able to transfer to the ball, so you may be losing distance. Slippery grips also make it tougher to square the clubface at impact. Fixing that hook, slice or improving distance control may be as simple as a fresh set of grips.

Regrip your clubs

If you're playing several times a week, it's a good idea to regrip your clubs annually to maintain performance.

Get a grip on ball striking

New clubs and new grips can breathe new life into your ball striking.

Wedge shots around the green are all about getting as close to the hole as possible. A golf ball that spins readily and feels great makes this a lot easier to do consistently. The new Srixon Z-STAR is that ball.

Make your own luck

Good impact isn't enough

Setting up a scoring opportunity on your approach is about more than making good impact with the right club. Use the power of observation to make your own luck and maybe you'll get even closer to the pin.

3 things to take note of

What's your lie?

The condition and slope of the turf will affect the club you take and the type of swing you make.

What's the elevation?

If you're above or below your target you'll need less or more club than if you're level.

What's the wind direction and strength?

Wind can actually work in your favour if you know how to use it.

How we create luck

When you combine these observations with the knowledge of how far you hit every club and the confidence of a repeatable swing, you're going to get lucky a lot more often. Struggling with your swing? Not sure how far you hit every club? Let's go for a round or spend some time together on the range.
