Reasons to stay

What really matters

When the sun's out and the birds are chirping, there's no better place to be than sauntering the fairways with friends.

Priorities

Golf focuses and relaxes the mind in a welcoming, peaceful setting. Your scores don't matter in the greater scheme of things – you don't earn your living from them. What truly matters is enjoying the company of your playing partners and finding your emotional equilibrium.

Let's have some fun

Enjoyment matters more than scores. Tee it up with your friends and have some fun together. And if you don't have a group to play with, let us know and we'll connect you with one.

Your best angle

It all happens at impact

Face angle at impact is the single most important determining factor when it comes to initial launch direction.

The influence of face angle

Research conducted by PING showed that the longer the club, the more crucial

face angle becomes. More specifically, a driver's face angle influences up to 76% of the ball's initial launch direction.

Adjustments such as loft, shaft length and shaft flex can all affect your ability to square the face at impact.

Set for straighter strikes

Let's make sure your driver setup is enabling you to square the face at impact so you can reach your full accuracy and distance potential.
